

Ayman Ghonim

Frontend Engineer — React.js | Next.js | TypeScript

+20 122 860 0736 | aghonim133@gmail.com | github.com/AymanGhomim | linkedin.com/in/aymanghonim200

Professional Summary

Frontend Engineer with hands-on experience building scalable web applications using React.js, Next.js, and TypeScript. Skilled in developing reusable UI components, integrating REST APIs, managing application state with Redux Toolkit and RTK Query, and delivering responsive interfaces from Figma designs. Focused on clean architecture, performance optimization, accessibility, and modern frontend best practices.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: React.js, Next.js

UI Libraries: Tailwind CSS, Material UI, Shadcn UI, Bootstrap, Framer Motion

State Management: Redux Toolkit, RTK Query, Zustand, React Context API

Frontend: Responsive Web Design, REST API Integration, Authentication, Internationalization (i18n), RTL Support, Component-Based Architecture

Tools: Git, GitHub, npm, Vite, Firebase, Postman, VS Code, Figma

Practices: Clean Code, Performance Optimization, Accessibility (WCAG), SEO, Agile/Scrum, Code Refactoring

Professional Experience

Frontend Engineer

Jun 2026 – Present

Penta-K

- Develop scalable web applications using React.js, Next.js, and TypeScript.
- Build responsive, reusable, and maintainable UI components following modern frontend architecture.
- Develop enterprise admin dashboards for managing users, providers, subscriptions, payments, notifications, and business operations.
- Integrate RESTful APIs using Redux Toolkit and RTK Query while implementing efficient state management.
- Refactor legacy modules into reusable components, improving code quality and maintainability.
- Optimize application performance, accessibility, and responsive behavior across desktop and mobile devices.
- Collaborate closely with backend engineers, UI/UX designers, and QA teams within Agile development environments.
- Participate in code reviews and continuously improve development standards and best practices.

Freelance Frontend Developer

2025 – Jun 2026

Self-Employed

- Designed and developed modern web applications using React.js, Next.js, and TypeScript.
- Converted Figma designs into pixel-perfect, responsive user interfaces.
- Integrated REST APIs, authentication systems, and dynamic data management.
- Built reusable UI components and scalable frontend architectures for multiple client projects.
- Improved application performance, accessibility, and cross-browser compatibility.
- Worked directly with clients to gather requirements and deliver production-ready web solutions.

Featured Projects

CALL99 Dashboard Admin

React.js, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS

- Developed a scalable enterprise admin dashboard for a multi-service automotive platform.

- Built responsive interfaces for managing users, providers, orders, subscriptions, payments, notifications, coupons, and reports.
- Integrated RESTful APIs and implemented secure role-based access control.
- Refactored complex React components into reusable modules, improving scalability and maintainability.
- Enhanced dashboard performance and optimized frontend architecture for production environments.

Penta Portfolio Website

Next.js, React, TypeScript, Tailwind CSS

- Developed and maintained a multilingual portfolio website using the Next.js App Router.
- Built reusable, responsive, and accessible UI components.
- Implemented SEO optimization and internationalization (i18n) for Arabic and English content.
- Optimized performance using modern Next.js best practices.

Rakan Property Management Dashboard

Next.js, React, TypeScript

- Developed administrative modules for a property management platform.
- Built responsive interfaces for property, tenant, owner, and operation management.
- Refactored large codebases into reusable and maintainable React components.

Education

Bachelor of Computers and Information

2022 – 2026

Tanta University

Information Systems | Grade: Very Good

Professional Training

React Frontend Trainee

2025

Digital Egypt Pioneers Initiative (DEPI)

Intensive training in React.js, TypeScript, Redux Toolkit, REST APIs, Git, and modern frontend development.

Frontend Development Summer Trainee

2025

Information Technology Institute (ITI)

Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, and React.js.

Frontend Web Developer Trainee

2025

Information Technology Center (ITC), Mansoura University

Built frontend projects using React.js and integrated RESTful APIs.

Frontend React Trainee

2025

SEF Academy

Strengthened React fundamentals, routing, reusable components, and frontend architecture.

Certifications

- Digital Egypt Pioneers Initiative (DEPI) – React Frontend
- Information Technology Institute (ITI) – Frontend Development
- Information Technology Center (ITC) – Frontend Web Development
- SEF Academy – React Frontend

Languages

Arabic (Native) | English (Very Good)

Additional Information

- Available for full-time, remote, and freelance opportunities.
- Strong interest in frontend architecture, performance optimization, and modern web technologies.
- Portfolio, GitHub repositories, and project demos are available upon request.
